Entered on Note Book

The company commander will here add a statement of all the facts known to him concerning the disease or wound, or cause of disability of the soldier; the time, place, manner, and all the circumstances under which the injury occurred, or disease originated or appeared; the duty, or service, or situation of the soldier at the time the injury was received or disease contracted, stating particularly whether the injury was received or the disease contracted in the line of his duty; and whatever other facts may aid a judgment as to the cause, immediate or remote, of the disability, and the circumstances attending it.

When the facts are not known to the company commander, the certificate of any officer, or affidavit of other person having such knowledge, will be appended—as the surgeon in charge of a hospital, the officer commanding a detachment of recruits, &c., &c.

NOTE 2.

When a probable case for pension, special care must be taken to state the degree of disability—as *1/2, 2/3, &c.*; to describe particularly the disability, wound, or disease; the extent to which it deprives him of the use of any limb or faculty, or affects his health, strength, activity, constitution, or capacity to labor or earn his subsistence. The surgeon will add, from his knowledge of the facts and circumstances, and from the evidence in the case, his professional opinion of the cause or origin of the disability. In the case of discharges by Medical Inspectors, the last paragraph will state that the "discharge was given by consent of the soldier, after a personal examination, and for disability, the nature, degree, and origin of which are correctly described in the within certificate."

Par. 1260 Regulations, Edit. 1861.

Medical officers, in giving certificates of disability, are to take particular care in all cases that have not been under their charge: and especially in epilepsy, convulsions, chronic rheumatism, derangement of the urinary organs, ophthalmia, ulcers, or any obscure disease liable to be feigned or purposely produced; and in no case shall such certificate be given until after sufficient time and examination to detect any attempt at deception.

DIRECTIONS.

This certificate will be made out in duplicate by the soldier's company commander, or other officer commanding the separate detachment to which he belongs and sent by him to the surgeon who has charge of the hospital where the soldier is sick. The surgeon will then fill out and sign the surgeon's certificate, and forward these papers to the regimental, detachment, or post commander, who will forward them, with his action endorsed thereon, through the proper channel, to his division commander; or, if the troops are not attached to a division, to his corps, department, or other commander or officer to whom the authority to discharge enlisted men may be specially delegated.

These certificates, after having received the action of the highest authority to which they are required to be sent, will be returned through the same channel to the regimental, post, or detachment commander, who will, if the discharge is authorized by the endorsement of the proper authority, sign the soldier's discharge, and the last certificate on this paper; see that the soldier is furnished with the proper final statements in duplicate, and forward BOTH of these certificates direct to the Adjutant General United States Army, at Washington, D. C.; they will not under any circumstances be given into the hands of the soldier.

J. Smith's Receipt Jan 15th 1863

Received of Samuel Frost of Col 79 Regt 5th Mass Heavy Art
for a Certificate in regard to ground on application for Fortson
Jenkins City that I have carefully examined the Station
and find same appears from an attack of Charles in
consequence of which he is in my opinion unfit for duty
I further declare my belief that he is not a fit subject for the
Army hence I certify that he is not a fit subject for the
Army and I have so it is my opinion that a journey by
W. R. to determine is in my belief to be a
man of his size to contain in the head long enough
to reach that point - As soon as I was in the attack is
somewhat reduced the change will be great
and it is true -

SURGEON'S EXAMINATION FOR INCREASE OF PENSION.

The official Surgeon will transmit his examination direct to the Pension Office, and inform the pensioner, if there is increased disability, to prepare his application and forward the same with his pension certificate.

This report to be forwarded whether there is increased disability or not.

The Surgeon will suitably describe in what manner the original disability has been increased, and whether it has been entirely or partially caused by vicious habits.

The official blanks furnished Surgeons are for their exclusive use.

TOWN Indianapolis

April 29, 1865.

It is hereby certified, That David J. Mawel
 formerly a Private of Captain _____ Company
 in the 79 Regiment of Indo Vols in the war of 1861
 who, it appears by his pension certificate, was originally inscribed on the rolls of the agency
 in Indianapolis Ind., and since paid at Indianapolis
 agency at the rate of 4 dollars per month, on account, as he states, of Chronic
Wound which he contracted

while in the line of duty in the military service of the United States, on or about the 31
 day of August, 1863, at a place called Louisville
 in the State or Territory of Kentucky, is not only still disabled in
 consequence of said injury, but, in our opinion, his disability to obtain his subsistence by
 manual labor has increased since his pension was allowed, so that it amounts to Total
 disability.

The increased disability originates entirely from the injury or disease on account of which
 he was originally pensioned, as follows:

The number of discharges since last examination
increased & always somewhat tinged with blood - now
frequently in large proportion blood - the
digestion poor, impeded food passing within
three or four hours of its reception into stomach
entirely undigested - the number of discharges
average now 8 in 24 hours - associated
& weak

IN THE CASE OF AN APPLICANT FOR INCREASE OF PENSION.

No. of Certificate, 33251

State: Indiana County: Greene
 Post Office: Worthington November 29, 1875.

It is hereby certified That David J. Warvel
 formerly a private of Captain Joseph Gourdeau Company K
 in the 79 Regiment of Indiana Vol., in the war of 1862
 who is now paid at Indianapolis Agency at the rate
 of six dollars per month, on account, as he states, of Chronic Diarrhea
 & results

while in the line of duty in the military service of the United States, on or about the
 1st day of September, 1862, at a place called Louisville
 in the State or Territory of Kentucky
 is still suffering in consequence of said Chronic diarrhoea, also disease
 of left kidney & nasal catarrh

Here specify the particular disease or injury.

The disability originates entirely from the injury or disease on account of which he was originally pensioned, as follows:

Height, 5 feet 10 in.; weight, 145; complexion, dark
 age, 49; respiration, 18; pulse, 72

Here state fully and accurately the character of the pensioner's disability, and how he is at present affected thereby; also, state whether the disability is permanent in its present degree, and whether it has been in any degree caused or protracted by vicious habits.

He has chronic diarrhoea, his tongue is coated, but the papillae are not
 enlarged, nor is it red around the edges, but his abdomen is swollen & somewhat tympanitic. Has from four to six evacuations from his bowels daily
 & is troubled also of nights. This I rate at 1/4 or six dollars per month \$6.00 p mo.
 He has an unhealthy & feeble appearance. He has much tenderness in the
 region of the right kidney & sometimes has much pain in urinating when
 the urine has a very red & thick appearance; at other times he has difficulty
 in holding his water, when he has to urinate every few minutes & is of a lumped
 & sometimes of a milky appearance. This I rate at 1/4 or five dollars per month
 \$5.00 p mo. He also has nasal catarrh, with much pain in the os
 frontis & of nights mucus runs from the frontis down his throat while he
 is asleep producing much annoyance. I do not know that it is permanent
 This I rate at 1/4 or two dollars per month \$2.00 p mo. - From what I can
 learn his disabilities have not been produced or increased from vicious habits.

I find his disability, as described above, to be equal to, and entitling him to:
 Seven dollars per month. \$7.00 p mo 3rd grade paragraph 3
